The BioFlex **ID-175 & LD-1200 Treatment Heads are described as a Class II Low Level Laser treatment heads that apply energy, which penetrates the skin surface to the underlying tissues, and triggers normal cellular functions that lead to a surgery-free, drug-free, and low cost benefit to the patient, the practitioner and the health care system.

The scientific concept on which this device is based is the principle that by stimulating a local area with low level laser to relieve pain.

The intended use of this device is for a trained health care professional to diagnose that specific patients would benefit from this therapy and treat patients for specific ailments using specific protocols.

The "Indications for Use" for this device is intended to emit energy in the infrared spectrum to provide topical heating for use when heat is indicated in the temporary relief of minor muscle and joint pain, muscle spasm, pain and stiffness associated with arthritis, and promoting relaxation of the muscle tissue.

This is a prescription only device. The labeling, instructions and user operations are designed for health care professionals.

Exhibit 19 Summary of Safety & Effectiveness

Meditech International Inc. has determined that the BioFlex tm LD-I75 & LD-I200 Treatment Heads are substantially equivalent to the performance of three predicate devices:

- K 033768, Optional Infrared Handpiece for CoolGlide Lasers, manufactured by Altus Medical, Inc.
- K031612, Lamp, Infrared, Alt Laser, Model Vtr 75 manufactured by Avicenna Laser Technology, Inc.
- K024179, Lamp Infrared, Palomar Lightcube, manufactured by Palomar Medical Products,

This device is different from other predicate devices in that it is part of a regiment that uses proprietary, interchangeable treatment heads to allow various protocols (and software loaded in a P.C. computer to download protocols) and record session / patient data.

A series of factory calibration tests are conducted to verify the device is accurate and calibrated (and can maintain calibration over its useful life). The *BioFlex* tm *LD-175 Treatment Head* has benefited from design, development, testing and production procedures that conform to Quality Systems.

This device is safe and effective for the application for which it is intended and has been tested to confirm safety and efficacy. **Meditech International Inc.** continues to search all appropriate sources for information relating to safety and effectiveness and maintains an *in-house* reporting system to identify adverse safety and effectiveness information and as such, applicable data is recorded for this product.

CERTIFICATION:

I hereby certify this **Summary of Safety and Effectiveness** applies for the above indicated device.

Re: K041885

Trade/Device Name: BioFlex™ LD-I75 & LD-I200 Treatment Heads

Regulation Number: 21 CFR 890.5500 Regulation Name: Infrared Lamp

Regulatory Class: II Product Code: ILY

Dated: November 28, 2004 Received: December 2, 2004

Dear Mr. Keen:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the <u>Federal Register</u>.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,

Miriam C Provost Celia M. Witten, Ph.D., M.D.
